**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM  
 THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 3 is again rejected under 35 U.S.C. 102(b) as being anticipated by Goumas (Summary, page 4). Goumas discloses that carbocysteine reduces infection in patients by exerting its action upon the “gel” phase of the secretion which disobejects the bronchial tree. Applicant argues that amending the claim to recite “consisting essentially of” renders the rejection under 102(b) moot. This is not persuasive. Reducing the secretions in only the gel phase would still prevent infection.

Furthermore, it appears that the intent of the word “prevent” in the instant claims is to suppress the adhesion of bacteria onto the upper respiratory tract. This would retard or hinder the development of bacterial infection. This contrasts with the definition of “prevent” in Webster’s II New Riverside University Dictionary, which defines “prevent” as “keep from happening.” (Webster’s is cited for evidentiary purposes only.)

In view of the amendment to the claim the earlier rejection under 35 USC 112, paragraph two, is overcome.

### ***Conclusion***

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
